## NEW VET AT KVG

We have been busy recruiting in recent months. May has gone on to pursue her interests in exotic animals so we wish her well. We are delighted to introduce Arletta Kotlicka to our Vet team. Arletta has a wealth of experience and is a fantastic addition to our team.

Follow us on Facebook to see all our latest news, offers and help and advice videos. Including applying a spot-on treatment, giving your dog a worming tablet and much more.

## Summer 2019 Newsletter

The sun is shining, the temperatures are increasing and good old Scotland we are still getting our fair share of rain. All this create the perfect environment for flees to breed more than usual so it is time to talk about flea treatment for your pets. As we continue to advise all our client's prevention is the best possible treatment for flees. It is easier to stop flees impacting your pet's health than to try and treat afterwards.

So, what are the signs that your cat or dog could have flees?

- Is your pet scratching more frequently?
- Does your pet now have some bald spots or sores?
- Does your pet have spots or scars?

If you notice any of the above, please call the Practice to discuss treatment.

- Remember the quicker you treat the better
- Don't just treat your pet, regularly wash your pets bedding.
- If your pet has flees then you will need to treat your household where flees can survive for a few months.
- Most importantly, we are here to help, give us a call and we will happily assist you.

### DOES YOUR PET SUFFER ANY OF THESE COMMON SYMPTOMS?

PERSISTENT LICKING OVER-GROOMING SKIN IRRITATION FACE RUBBING  
PAW CHEWING SCRATCHING RASHES HAIR LOSS VOMITING DIARRHOEA

Our friends at Avacta are offering a significant discount on allergy testing as part of their pet allergy awareness campaign. Allergens include foods, pollens (trees, grasses, flowering plants), moulds, dust and storage mites, fleas, and many more.

Speak to one of our vets or nursing team for further information.

**We are always keen to hear feedback and suggestions from our Clients on the Services that we offer. If you have any we would love to hear from you so please email to us at [kerrvetgroup@gmail.com](mailto:kerrvetgroup@gmail.com)**
