NEW VET AT KVG

We have been busy reshaping our Vet team in recent months. We are delighted to introduce our new vet who will be a familiar face to a lot of you. Catherine Wilson, formerly owner of Kilbarchan Vets has joined our team. Cath has a wealth of experience and is a fantastic addition to our team and we are delighted to have her on board.

Please remember our Johnstone branch remains closed at this time. We will hopefully reopen as soon as restrictions are eased.

Summer 2020 Newsletter

We would like to thank everyone for their support during these unprecedented times. It has been incredibly challenging to ensure we can maintain the excellent service everyone expects from us at Kerr Vet Group. We are incredibly grateful to have an outstanding team who continues to work hard to ensure all your pets get the care and attention required.

Covid-19 has changed all our lives now. However, one thing that it hasn't changed is flees breeding at this time of year. We continue to advise all our client's prevention is the best possible treatment for flees. It is easier to stop flees impacting your pet's health than to try and treat afterwards.

So, what are the signs that your cat or dog could have flees?

- Is your pet scratching more frequently?
- Does your pet now have some bald spots or sores?
- Does your pet have spots or scars?

If you notice any of the above, please call the Practice to discuss treatment.

- Remember the quicker you treat the better
- Don't just treat your pet, regularly wash your pets bedding.
- If your pet has flees then you will need to treat your household where flees can survive for a few months.
- Most importantly, we are here to help, give us a call and we will happily assist you.

We would like to reassure our clients that veterinary care for sick and emergency cases will still be available.

Our prescription ordering service will continue, however please provide us with as much notice as possible due to restrictions imposed by suppliers. Urgent and pre-ordered medications can still be collected from our Bridge of Weir surgery, please phone first to arrange collection.

Video Consultations are now available, so please contact the surgery if you require an appointment.

We are always keen to hear feedback and suggestions from our Clients on the Services that we offer. If you have any we would love to hear from you so please email to us at kerrvetgroup@gmail.com
